

August 6, 2004

Dear Suzanne,

I wanted to let you know how much our family has enjoyed our time at Concordia Lutheran School. We consider ourselves very fortunate that we were able to send the boys there for their pre-school years. It was a very difficult time when I decided to go back to work after being a "stay at home Mom" for four years. The thought of my children being taken care of by someone other than me was not easy. However, the care that they received at Concordia and the fun they had there made the transition so much easier than I ever thought it could be. I have felt very much at ease at work knowing that the boys were in a place surrounded by people who cared for them and that all their needs were met. For that I want to thank you and your staff. Both Zachary and Trace have blossomed in the past few years and are truly ready to move on to the next step.

I wish you and the school the utmost success in the future. We go away from this experience with wonderful memories. I have and will continue to recommend Concordia Lutheran School to my friends and colleagues.

All the best,

*Justina Baanowski*
